Subject Domestic Hot Water Policy

To All Area and Buildings Managers, NCR

The policy of shutting off domestic hot water serving restrooms was undertaken in June of last year to achieve energy conservation objectives in the National Capital Region.

The results obtained have been very effective and the decision has been made to continue this program indefinitely. The exceptions to these requirements are that domestic hot water may be generated for cafeterias, health units, showers, craft and custodial washrooms, utility sinks, printing plants, and special-purpose laboratories.

If you have any questions concerning this policy, contact the Energy Branch on 755-1547.

JOHN T. MYERS
Assistant Regional Administrator
Public Buildings Service
